TechnicalSkills

Languages: JavaScript

Frameworks & Libraries: React.js Express.js Node.js

Databases: MongoDB, Mongoose ORM

Technologies & Tools: Figma GitHub

Key Areas : Full-Stack Development, Responsive UI Design , API Development, State Management

Projects

Portfolio Website

[Live Link](#) | [GitHub](#)

Tech → Vite React Router Dom React Icon Framer Motion Git calendar

- Designed and developed a **personal portfolio** website to showcase projects and skills, built with React.js, Vite, and Framer Motion for a modern and responsive UI.
- Implemented smooth animations using **Framer Motion** and created a **dynamic project gallery** with **GitHub integration**
- Added a **GitHub calendar** to visually display contributions and deployed the site on Vercel for optimized performance.

Tech → Vite React Router Dom TailWind CSS EmailJS

- Implemented **React Router DOM** for seamless, client-side navigation and **dynamic routing** in a **single-page application (SPA)**.
- **Tailwind CSS** is a utility-first CSS framework that lets you **quickly style** websites using pre-built classes directly in your HTML or JSX, making it **faster** to **design responsive** and customizable UIs without writing much custom CSS.
- **EmailJS** is a service that lets you **send emails** directly from your frontend app (like React, Vue, etc.) **without needing your own backend or SMTP server**, making it easy to add features like contact forms.

FF Stylish Name Generator| Fancy Name Generator

Tech → Vite Framer Motion CSS3 ReactJS 19

- **React.js** to build a dynamic, **component-based** UI with reusable elements and fast rendering. React's **virtual DOM** and **state management** made it easy to create a smooth, interactive user experience.
- **Framer Motion** to add smooth, **interactive animations**, enhancing the overall **user experience**. Its declarative API made implementing **transitions**, gestures, and UI effects simple and **performance-optimized**.
- **Vite** – You're using Vite instead of **CRA**, which is modern, fast, and lightweight.

Education

Higher Secondary School Certificate (HSC), Maharashtra State Board – Completed 2025

science(PCMB) **Score: 59%**

- **Self-Taught** Software Developer specializing in **MERN Stack**, SaaS Development, and Web Applications
- Currently exploring **Backend Development** with **Node.js** and **SaaS product development**
- Actively learning Cloud, DevOps, and API Development through self-paced resources
